

GPS TRACKING DEVICE

Date : 2024

About Us

We are a Technology solution company that was founded in 2021. We have served different technologies solutions for hundreds of companies. And we have many professional experts in the field of technologies to help develop a product or service business.

Some Of our Services are

- GPS Tracking Supply and Installation
- CCTV Security Camera
- Networking Installation
- Web Development
- Printing and Branding
- Digital Marketing and Advertising
- ERP System (www.addislinkerp.com)
- 360 Degree Tour System (www.lebawi.net/360-2/)

Part One

ET300 GPS Tracking Device

Fact

Adding extra protection to your vehicle or other large purchases seems like a no-brainer, right? Since hiring a security team or building a vast network of cameras is out of reach for most of us, what's the next best option? Enter GPS trackers: a cheap, easy way to keep track of the important and valuable things in life, whether they are cars, boats, or campers.

The applications for GPS trackers can quickly veer into questionable moral territory, so consider what you intend to use it for before purchasing. In fact, in most states, installing a GPS tracker without the vehicle owner's consent or knowledge is illegal.

However, there are plenty of legit applications for these little gadgets. Toss a GPS tracker on your vehicle, trailer, baby stroller, or in the car with a new driver... anything at all that should be kept track of. But which one should you get? After all, there are trackers with different power options, functions, and reporting metrics

The Hearst Autos Gear Team wanted to know the answer, so we pulled together eight of the top dogs on the market to find out which GPS tracker is the best for your needs.

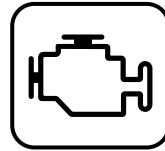

GPS TRACKING

Our Product is ET300. It is a Vehicle tracker, also suitable from E-bikes to bug Trucks. It is very easy to install, has a built-in battery, as well as a discrete output for remote shutdown of fuel supply.

Other More Features

Functionality

The ET300 Car GPS Tracking Device is a versatile and reliable tracker that offers real-time tracking, history route playback, and Geo-fencing capabilities. With its engine cut-off feature, it provides anti-theft protection, giving you peace of mind knowing that your vehicle is secure.

This device also comes with an alarm and notification feature that alerts you when your vehicle is moving, speeding, or leaving a designated area. You can easily track the positioning location of your vehicle through our platform service, which is available on both desktop and mobile applications.

The ET300 Car GPS Tracking Device provides comprehensive reports on moving overview, mileage, over-speed, and Geo-fencing. You can easily access these reports through our platform and gain insights into your vehicle's usage.

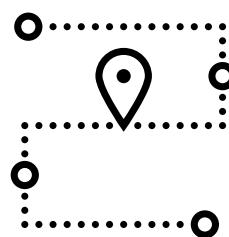

Our device supports multiple map options, including Google Maps, Open Street, and Baidu, so you can choose the map that works best for you. Additionally, the device sends SMS and call alarm notifications when the power or GPS device is disconnected.

We offer both mobile and web app platforms for easy accessibility and convenience. With the ET300 Car GPS Tracking Device, you can be sure that your vehicle is secure and that you are always aware of its location and usage.

ET300 Car GPS Tracking Device is compatible with different types of vehicles, from motorcycles up to trucks. It is designed to work with a wide range of vehicles, making it an ideal solution for businesses or individuals who manage a fleet of vehicles.

The device's working voltage is 9VDC ~ 50VDC, ensuring that it is compatible with most vehicles' electrical systems. Whether you have a small motorcycle or a large truck, this device will work seamlessly with your vehicle.

Furthermore, the ET300 Car GPS Tracking Device is compact in size, making it easy to install and hide in small places. It can be installed discreetly in your vehicle, allowing you to track your vehicle's location without anyone knowing.

Device Specification

SPECIFICATION	
Items	Specification
Type	ET300
Unit Size	67(L)*38.8(W)*11.5(H)mm
Color	Black
SIM Card Slot	One
Voltage Input Range	9-50V(For Car, Vehicle etc),9-100V(For Electric Bike)
GPS Positioning Precision	10m(2DRMS)
Weight	0.125KG
Humidity	20%-80% RH
Working Temp	-20-70°C
Geo-Fence	Geo-Fence Alarm Support
Language	English, Chinese
GSM+GPRS+GPS	GPS Location
History Track	History Report
GPS Positioning Time	Cold Start-38s(Open Sky), Hot Start-2s(Open Sky)
GPRS	Glass12, TCP/IP
GSM Frequency	850/900/1800/1900Mhz
Made in	China, Shenzhen Benway Technology Co., Ltd

PRODUCT APPLICATION

GPS Tracker Model No:ET300

GPS+LBS Dual Locating

Suitable for Motorcycle Tracking

Inbuilt G-Sensor

ACC Detection

Engine Cut Off Power

9-100V for electric bike. 9-50V for car and motorbike.

Sleeping mode for saving power

Angle Datas Uploads & Data Storage while no GSM.

Security performance is higher
And you deserve it!

- Remote cut-off
- Built-in Battery
- Sleeping Mode
- Real Time Tracking
- Tracked by:SMS,APP,Web
- Multiple alarms

For the following types of vehicles

More reliable

- Bus
- SUV
- Car
- Motorcycle
- Truck
- Motorcycle
